The Master Index

APRICOT FILE 1986-1987

The Complete Index to Release 2

This is the fullest possible index to APRICOT FILE Release 2, the twelve issues we published between October 1986 and September 1987.

It's long because there are numerous duplicated references to provide more than one way to locate a particular article. (Besides, we have covered a lot of material in the past twelve months.) In general, product names are shown in CAPITALS to distinguish them; titles of publications and *q.v.* references are underlined.

Following the index, there is a complete issue-by-issue list of the contents of the newsletters. If you're missing any copies, we have Back Issues in stock at £4.00 each.

■■■ Numbers ■■■

SUBJECT	REFERENCE	ISSUE	PAGE
1-2-3	[see LOTUS 1-2-3]		
2123	price cut on Tandy/Racal modem	2.9	32
4018	new Brother printers at WC Show	2.6	1
80286	in Apricot's IBM conversion	2.4	1
	in PC-286 (IBM-compatible)	2.12	2
	XEN problems	2.4	2
80386	in new Apricot products	2.5	1
80387	in new Apricot products	2.5	2
8086	8086/8088 Assembly Language	2.9	9
	Assembly Language for 8086/8088	2.9	9
	Programming the 8086 reviewed	2.9	9
8087	and SUPERCALC speed [Q&A]	2.10	9
	installation advice	2.5	24
	8087 Applications & Programming	2.9	9
	Advanced MS-DOS reviewed	2.9	10
8089	on Apricot Xi	2.4	5
